

Ygor Gabriel Combi

Full Stack Developer. 25, Minas Gerais, Brasil.

Full-stack PHP Developer with extensive experience in SaaS. Specialist in Laravel and its ecosystem for 3 years. Strong communication skills, teamwork abilities, and maintainer of open-source projects.

FULL-STACK DEVELOPER

ADVBOX, 2023 - CURRENT

ADVBOX is a **legal tech** company based in Florianópolis (Brazil). In this role, I work as a **Full-stack Developer** using technologies such as **PHP & Laravel**, HTML, CSS (Scss), and **JavaScript** (and **TypeScript**).

Responsibilities include creating and maintaining web applications, implementing new features, debugging and fixing issues, and **performing** code reviews.

I collaborate with cross-functional teams to deliver projects using **agile methodologies**. Additionally, I play a key role in improving workflows for various teams, including sales, customer support, and internal process **documentation systems**. This involves developing systems that enhance team efficiency and streamline company operations.

ENTREPRENEUR & FULL-STACK DEVELOPER

Studio Modus (formerly Solary), 2021- CURRENT

Studio Modus was a **digital agency** specializing in creating **websites** for law firms. As an entrepreneur and Full-stack Developer, I managed the entire project lifecycle, from sales and client acquisition to **project management** and **final delivery**. I developed websites using **WordPress** and **Laravel**, tailored to the specific needs of each client. Additionally, I created more **complex systems** for clients with advanced requirements. My role involved direct interaction with clients, understanding their needs, and providing customized solutions. This experience honed my skills in entrepreneurship, sales, and **technical development**, while also improving my ability to **manage multiple projects** simultaneously and deliver high-quality results.
